

Sacraments within the Curriculum Grades 1-9

Sacraments are integrated throughout the grades in the Religious Education programs. It is important to note that the Religious Education programs focus on sacramentality – on having a greater picture of what God is doing everywhere and for everyone. As St. Ignatius says, “to see God in all things”. It does not constitute or replace a sacramental preparation program that is offered at the parish.

The following chart reveals how and where each of the Sacraments are either addressed or specifically highlighted at the different Grade levels.
