

Employer's Game Plan

Help your workers stay in the game.

Encourage them to visit their OIS doctor for minor injuries.

1. **ASSESS** - if emergency care is needed, transport worker to hospital. For minor injuries, arrange transportation to OIS clinic.
2. **CALL AHEAD** - tell the OIS facility you're sending an injured worker.
3. **REPORT** - fill out an accident report.
4. **DEVELOP RETURN-TO-WORK PLAN** - participate in the return-to-work case conference with your worker.
5. **IMPLEMENT MODIFIED WORK** - follow the return-to-work guidelines developed for your worker.
6. **MONITOR MODIFIED WORK** - call OIS clinic with any questions.

STAY in the
GAME

The Occupational Injury Service (OIS) is designed to get your workers quick access to expert medical and disability management services to get them back to work safely.
