

Resources for at-home learning during COVID-19

Alberta Education is providing additional resources to support learning from home during the COVID-19 pandemic. The resources were gathered in cooperation with content providers and publishers. Alberta Education has not vetted or added them to [LearnAlberta.ca](https://www.learnalberta.ca)'s Authorized Resource List. The content does not reflect Alberta Education's views, opinions, and/or endorsement.

More resources may be added while students learn from home. Teachers and parents are encouraged to preview materials prior to use and follow the publisher's copyright terms for printing and copying.

Teachers must use their professional judgement and knowledge to select the most appropriate resources and teaching methods to best meet their students' needs.

If parents access the materials, they must use their own judgment to decide what is appropriate for their child.

For more information, or to recommend free support resources that are aligned to K-12 curriculum, contact us at <https://www.learnalberta.ca/feedback.aspx>.
